—An excess of animal food and a partial closing of the pores of the skin, during the Winter months, cause the system to become filled with impurities. These can be removed and the blood purified and invigorated by taking Ayer's Sarsaparilla. Price \$1.
—The Albany Journal has sent personal inquiries to the farmers on its list in various States, asking their opinion as to the President's message and its demand for the removal of the duty on foreign wool. It reports that, out of thousands of replies, not one in 500 is favorable to the President's view of the tariff.
—A New York Tribune editorial says: "A little experience with a degraded class of foreigners hostile to our institutions and unwilling to unite with us is said to have brought the rest of the country more into sympathy with the efforts of the Pacific Coast to check the tide of undesirable immigration, a large proportion of which is of the vilest character."

Being More Pleasant

To the taste, more acceptable to the stomach, and more truly beneficial in its action, the famous California liquid fruit remedy, Syrup of Figs, is rapidly superseding all others. Try it. One bottle will prove its merits. For sale by Geo. C. Thaxter, agent.

THE LITTLE LOUISIANA.

How it is Cutting into the Reins of the Big Company.
For some months past the Little Louisiana Lottery Company has been rapidly cutting into the business of the big Louisiana Company. There is a general feeling that the money put into the Little Louisiana stays on this Coast instead of going to New Orleans, and this feeling has caused a regular stampede of lottery patrons to the San Francisco Company.
Another thing that has helped has been the good luck which always attends Nevada in the drawings. Several of the big prizes have fallen on sagebrush soil, and as for the small ones, they come down in a "right smart shower."
Since the last drawing the agent of the Little Company in Carson has paid out nearly \$800 in premiums in sums ranging from \$5 to \$125.
The Little Company has met all obligations, and has the full confidence of the community, and that feeling appears to be generally shared by the entire Pacific Coast.
No Free Advertising.
The APPEAL has received a column announcement of the Prohibition party. It proposes to hold a State Convention in this city, and wants the APPEAL to do the advertising free.
As this paper has a fixed rate for all political advertising it can enter into no such contracts with the Prohibitionists until the money is up.
We have considerable difficulty in getting a settlement in full with the two established parties, and considering the outlook in Nevada for the Prohibition party we had rather not take any risks.
Syrup of Figs
Is Nature's true laxative. It is the most easily taken, and the most effective remedy known to cleanse the System when Bilious or Costive; to dispel Headaches, Colds, and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. For sale by George C. Thaxter, agent Carson.
Another Prodigy.
New York, March 21.—The Sun's London cable special says: A new piano prodigy more wonderful even than Josef Hofmann has been discovered in Otto Hegner, aged 10 years. He was heard before the critics last evening, and they say that in thorough musical education he is a long way ahead of Hofmann.
O. E. S.
The anniversary exercises of Esther Chapter will be observed on Friday evening, March 25th, at the hall of the Order. All Masons in good standing are cordially invited to attend. By order of the **WORTHY MATRON.**

—An article on "Pioneer Illustration in California," with reproductions of many of the best engravings of the period, will be a feature of the Overland Monthly for April. It will deal with the work of the artists and engravers who created the well-known types of California mining life, and will contain biographical sketches of Charles Nahl and others. The work in many of these cuts, of the first ten years of American occupation, is of surpassing merit for the time; better, indeed, than almost any that has been done on the Coast.—April Overland Monthly.
